

WHOLE HOUSE
FANS

WHF SERIES
1000 - 4410 CFM

For millenia, mankind
has designed dwellings to take
advantage of lower nighttime temperatures.
AirScape Whole House Fans extend this time
tested concept by using modern technologies to

capture the COOL

Insulated, automatic doors help maintain
the environment in the living space and
robust, high efficiency systems ensure
years of reliable energy savings.

AirScape Advantages

Green

A modern, efficient natural cooling solution that reduces or eliminates the need for air conditioning. Benefit from lower utility bills and the peace of mind of having a smaller carbon footprint.

Quiet

Innovative design and high quality fans minimize noise level to make it possible for unobtrusive nighttime operation, when the lowest outside temperatures offer the best cooling opportunity.

Smart

Automated, insulated damper doors provide an airtight seal between the living space and attic so the environment in the living space is maintained whenever the fan is not running.

Robust

Engineered and designed with quality in mind. Riveted, heavy gauge, all-metal construction using industrial-grade components ensures years of worry-free reliable natural cooling.
