

e series WHOLE HOUSE FANS

YOU CAN HAVE IT ALL.

- ☑ QUIET
- ☑ EFFICIENT
- ☑ POWERFUL

AirScape Whole House Fans provide natural cooling during the evening by quietly pulling in cooler outside air and forcing hot air into the attic and out existing roof vents.

AirScape 4.4eWHF

Introducing the new line of super-efficient, super-quiet whole house fans – the AirScape e series. Featuring electrically commutated motor (ECM) technology, e series fans offer the ultimate in efficiency and low noise while providing the airflow you need to cool your home.

GO BIG

Take advantage of remarkably quiet and efficient low speed operation by **oversizing** - and reserve high speed for quick cooling the hottest days of the year.
